## Grant Activity

Grant Activity - Administration / Coordination			
Description	Project administration includes developing a partnership with the landowner, the Engineer and the SWCD. Contractual requirements, grant agreement requirements, BWSR Grants Administration Manual requirements, FY20 CWF Policy requirements, expenditure tracking, financial responsibilities, reporting requirements, and meeting the grant expiration deadline are the responsibility of the SWCD District Manager.		
Category	ADMINISTRATION/COORDINATION		
Start Date	8-Feb-20	End Date	
Has Rates and Hours?	Yes		
Actual Results	<p>The District Manager made sure compliance with the FY 2020 BWSR Clean Water Fund Policy and the BWSR's Grant Administration Manual was met.</p> <p>The District Manager was responsible for contractual requirements, time and expenditure tracking, financial responsibilities, reporting requirements, and keeping the SWCD Board informed through the process.</p>		

## Grant Activity - Agricultural Practices

<b>Description</b>	<p>Red Lake County SWCD has targeted ten sites for implementation of structural agricultural practices based on data analysis obtained from using the DRAFT Clearwater River WRAPs and TMDL Reports, Water Quality Decision Support System (WQDSS) tool, DNR Stressor ID database, and the Soil and Water Assessment Tool (SWAT) models. The data identified the Lower Clearwater River subwatershed as having the highest sediment yield in the Clearwater River Watershed, highlighted fields in the subwatershed with the highest sediment loading, and even showed specific locations in the field which were most vulnerable to erosion. Red Lake County SWCD conducted an Erosion Site Inventory in 2019, which verified the information from the tools/models and found landowners in these priority areas that were eager to fix the erosion problems on their fields.</p> <p>The structural agricultural practices will include, but are not limited to, grade stabilization structures, grassed waterways, and water &amp; sediment basins. The implementation of these practices is estimated to reduce sediment loading to the Clearwater River (AUID 501) by 793.28 tons/year, or 32% of the TMDL required annual load reduction.</p> <p>The Ag practice lifespan will be 10-15 years, these practices will be installed on private lands and will require a contract between the SWCD and the landowner. Seventy-five percent of the projects will be covered by the state grant and twenty-five percent will be covered by a local match such as, but not limited to, Red Lake Watershed District, Red Lake County SWCD, the landowner, etc.</p>		
<b>Category</b>	AGRICULTURAL PRACTICES		
<b>Start Date</b>	8-Feb-20	<b>End Date</b>	
<b>Has Rates and Hours?</b>	No		
<b>Actual Results</b>	Installation of 10 Ag Practices installed in the Lower Clearwater River Subwatershed.

Grant Activity - Project Development			
Description	The District Manager will act as a liaison between the landowner, Red River Valley Conservation Service Area RRVCSA) Technician, Red Lake County Highway Engineer, and the SWCD for on-site field visit.		
	The District Manager will submit an Engineering request with the RRVCSA Technician for surveying the project site.		
	The District Manager will Inform the landowner on the project's process (contract, design, bidding process, reimbursement voucher, etc.).		
	If RRVCSA Technician and the RLC Highway Engineer are not available, the SWCD will be hiring an Engineering Firm to complete the work.		
Category	PROJECT DEVELOPMENT		
Start Date	8-Feb-20	End Date	
Has Rates and Hours?	Yes		
Actual Results	Developed a partnership between the landowners, Private Engineer, and the SWCD District staff.		
	Scheduled with Private Engineer for surveying each project site.		
	Scheduled with Private Engineer a meeting with each landowner to review preliminary designs.		
	Assisted the landowner through the project's process (contract, preliminary design and final design review, bidding process, reimbursement voucher, etc.).		

## Grant Activity - Technical / Engineering Assistance

Description	<p>Technical and Engineering Assistance will be provided by the SWCD staff, the Red Lake County Highway Engineer, and the Red River Valley Conservation Service Area Technician.</p> <p>If the above Technical/Engineering staff are not available, the SWCD will be hiring someone with JAA or an Engineering Firm to complete the survey, design, construction, and construction inspection work.</p> <p>Designs and practice certification will be signed by the RLC Engineer or someone with appropriate job approval authority or a licensed engineer.</p> <p>Job approval authority credentials are available in eLINK or upon request.</p> <p>Ag practices will be designed according to the NRCS FOTG standards.</p>		
Category	TECHNICAL/ENGINEERING ASSISTANCE
